SUMMARY

A grant of \$2,500 from the Army Research Office was used to provide financial support for the travel and registration expenses of 8 researchers from American universities (including 4 faculty members, and 4 graduate students) to participate in the 4 th International Workshop on Biodegradable Plastics and Polymers. The workshop was held in Durham, New Hampshire on October 11 - 14, 1995. The total attendance was 178 conferees including representatives from 14 countries. The program included 31 lectures and 69 poster presentations. All of the recipients of financial support from the grant participated actively in the program either as speakers, in poster presentations or in the operation of the workshop.

INTRODUCTION

A grant of \$2,500 was awarded to the University of Massachusetts, Amherst by the Army Research Office, ARO, for the partial support of the 4 th International Workshop on Biodegradable Plastics and Polymers. The Workshop was held on the campus at the University of New Hampshire in Durham during the period of October 11 - 14, 1995. Professor Robert W. Lenz of the Polymer Science and Engineering Department was Co-Chair of the Workshop.

The purpose of the grant was to provide financial assistance to young researchers from American universities to help cover the costs of the registration fees and travel expenses. The recipients were either graduate students or younger faculty members, and each was committed to participating in the program as either a speaker , in a poster presentation or in the operation of the Workshop.

PROGRAM

The program of the workshop included 31 lectures and 69 poster presentations. A copy of the Workshop program listing speakers, discussion leader, lecture titles and poster presentations is given in Appendix I. The principal subjects of the lectures and posters were the following:

(1) New Degradable Polymers

- (2) Processing Biodegradable Polymers
- (3) New Characterization Methods for Biodegradable Polymers and Biodegradation
- (4) Biodegradation Methods and Safety Assessments
- (5) Regulation and Disposal

ATTENDANCE

The attendance list, which was distributed by the conference office, is given in Appendix II. The 178 conferees included representatives from 14 countries, including Austria, Belgium, Canada, England, Finland, France, Germany, Italy, Japan, Korea, the Netherlands, Poland, Sweden and the United States.

PARTICIPANTS SPONSORED BY ARO GRANT

The funds from the ARO grant were used to cover either part or all of the registration fees, meals, housing and travel expenses of 4 graduate students and 4 younger faculty members from American universities as indicated in the list below. Three of the faculty members (Browne, Nosker and Bartha) presented lectures and one (Jane) was involved in the organization of the Workshop. All four of the graduate students were involved in poster presentations. The names, affiliations and funds allotted for each of the recipients of ARO support are as follows:

Name	Position	University	Amount
7 7 W	T 11	5	Received, \$
R. Bartha	Faculty	Rutgers	400
S. Browne	Faculty	Mt. Holyoke	350
JL. Jane	Faculty	Iowa St.	400
